

Earth Science Quiz EXPECTATIONS

STATE the wind speeds for e1 through e5 tornados
STATE the minimum wind speed for tropical storm to called a hurricane
STATE the earth layer that generates a magnetic field
DEFINE uniformitarianism
DEFINE typhoons
DEFINE magma
DEFINE plasma
DEFINE granite
DEFINE bedrock
DEFINE molten
DEFINE mutations
DEFINE biotic provinces
DEFINE sulfuric acid
DEFINE stratospheric ozone
LABEL the layers of the earth
IDENTIFY which oceans are growing and shrinking as a result of plate tectonics
OUTLINE continental drift
OUTLINE the composition of each earth layer
DESCRIBE what happens to the earth's crust during an earthquake
DESCRIBE subduction
DESCRIBE the creation of a tsunami
EXPLAIN how continental drift effected biodiversity, diversity of habitats
PREDICT how volcanoes might effect global climate
