

AP Graphing Requirements

1. TITLE

- tells what graph is about, brevity but not at the sake of completeness or clarity

2. AXES LABELED WITH NUMBERS AND UNITS

3. SCALES

- must be uniform and should more or less correlate with experimental intervals

4. POINTS

- clearly marked; only data collected

5. KEY

- if multiple lines or data are being graphed

6. DEPENDENT VARIABLES ON VERTICAL AXIS

7. INDEPENDENT VARIABLES ON HORIZONTAL AXIS
